

How can we reduce your costs?

Colocation with us can reduce your IT expenses and improve reliability at the same time

01 - Right sizing

With our consultative approach to right sizing each deployment, we've saved customers up to 50% off their monthly colocation costs.

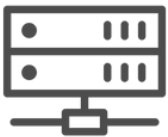

02- Price reduction

Other data centers can oversell on price as well as space. We have saved customers up to 30% off their price per rack here.

03- Fully managed options

For a slight increase in monthly cost, you can save significant amounts of time with no more inconvenient trips to the data center.

04 - Free cross connects

Usually a primary revenue driver for data centers, we offer all cross connects completely free to our customers.

05 - Free remote hands on

Our 24/7 free remote hands-on saves customers time and improves our reliability, read more [here](#).
